In response to @TomCottonAR saying the Founding Fathers believed U.S. slavery was a "necessary evil," some of the nation's top civil rights leaders -- @TheRevAl @MARCMORIAL @KristenClarkeJD @vanitaguptaCR @Sifill_LDF @DerrickNAACP & @coalitionbuildr -- want formally him censured.

Their statement is below:

In defending his proposal to suppress the 1619 Project, a *New York Times Magazine* project that re-examines the legacy of slavery in the United States, Sen. Cotton made the following statement:

"We have to study the history of slavery and its role and impact on the development of our country because otherwise we can't understand our country. As the Founding Fathers said, it was the necessary evil upon which the union was built, but the union was built in a way, as Lincoln said, to put slavery on the course to its ultimate extinction."

It is inexcusable for a member of the United States Senate to use the word "necessary" when referring to any aspect of the indefensible institution of slavery.

The Senate must formally censure Sen. Cotton on the basis that his words are "reprehensible" and are contrary to "acceptable norms of ethical conduct in the Senate." Further, they are words that bring the modern Senate into "dishonor and disrepute."

Sen. Cotton's words are even more reprehensible because they were uttered during a period of national grief following the passing of Congressman John Lewis. Congressman Lewis dedicated his life to the civil and non-violent pursuit of civil rights of all people. Sen. Cotton's words can only be viewed as diminution of the Senate's efforts to honor Congressman Lewis' life's work in the Civil Rights Movement and in the United States Congress.

Every member of the Senate must forcefully condemn Sen. Cotton's appalling words and make it clear that minimizing the horror and immorality of slavery in any way is unacceptable.

So Mr. AG, how many cases of mail voter fraud have been brought in the U$ in the last decade or two?

As AG he could provide data as to the actual incidents of 'by mail voter fraud' and therefore quantify his statement.

There's a high risk of what exactly?

Statement Regarding Illegal Contributions From Foreign Governments

June 13, 2019

Let me make something 100% clear to the American public and anyone running for public office: It is illegal for any person to solicit, accept, or receive anything of value from a foreign national in connection with a U.S. election.[1] This is not a novel concept. Electoral intervention from foreign governments has been considered unacceptable since the beginnings of our nation. Our Founding Fathers sounded the alarm about "foreign interference, intrigue, and influence." They knew that when foreign governments seek to influence American politics, it is always to advance their own interests, not America's. Anyone who solicits or accepts foreign assistance risks being on the wrong end of a federal investigation. Any political campaign that receives an offer of a prohibited donation from a foreign source should report that offer to the Federal Bureau of Investigation.

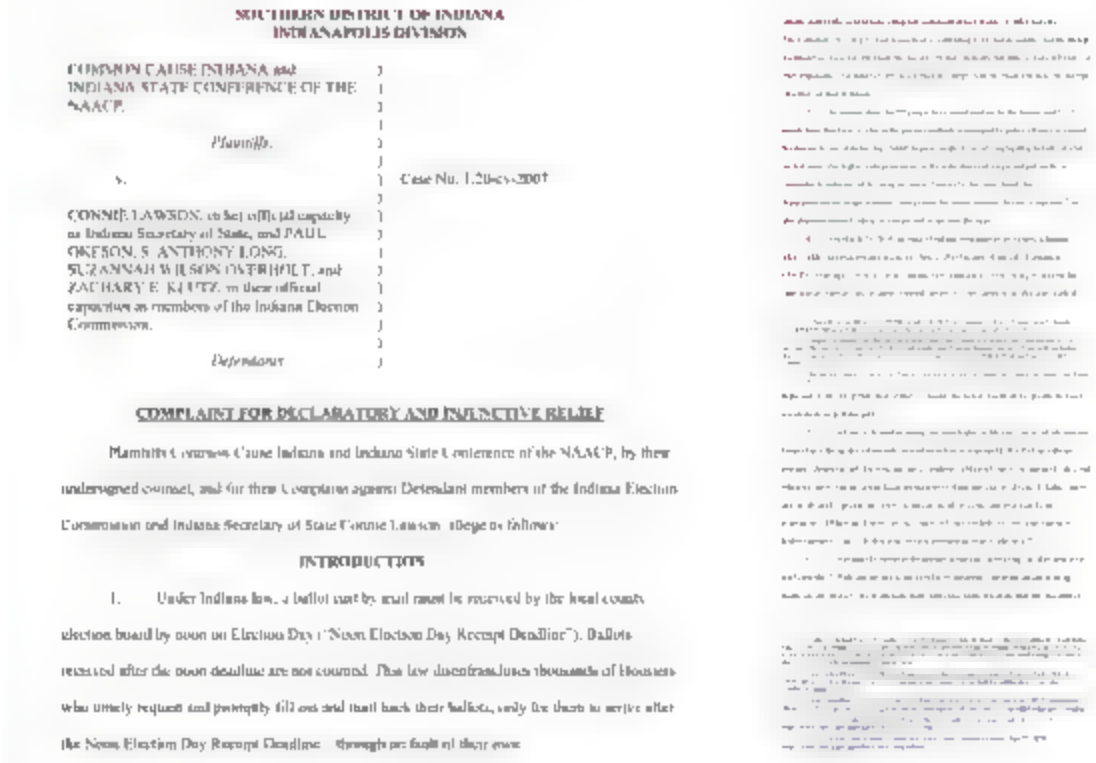
BREAKING: We just filed suit against Indiana election officials over the state's premature deadline for the return of absentee ballots. As the pandemic rages on, officials must address restrictions that disenfranchise eligible voters. @LawyersComm @CommonCause_IN @ChgoCivilRights



SOUTHERN DISTRICT OF INDIANA
INDIANAPOLIS DIVISION

COMMON CAUSE INDIANA and INDIANA STATE CONFERENCE OF THE NAACP,

Plaintiffs,

v.

Case No. 1:20-cv-2007

CONNIE LAWSON, in her official capacity as Indiana Secretary of State, and PAUL OKESON, S. ANTHONY LONG, SUZANNAH WILSON OVERHOLT, and ZACHARY E. KLUTZ, in their official capacities as members of the Indiana Election Commission,

Defendants

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

Plaintiffs Common Cause Indiana and Indiana State Conference of the NAACP, by their undersigned counsel, and for their Complaint against Defendant members of the Indiana Election Commission and Indiana Secretary of State Connie Lawson, allege as follows:

INTRODUCTION

1. Under Indiana law, a ballot cast by mail must be received by the local county election board by noon on Election Day ("Noon Election Day Receipt Deadline"). Ballots received after the noon deadline are not counted. This law disenfranchises thousands of Hoosiers who timely request and promptly fill out and mail back their ballots, only for them to arrive after the Noon Election Day Receipt Deadline – through no fault of their own.

BREAKING: We sued election officials in Ohio over discriminatory and arbitrary signature match verification requirements that disenfranchise thousands of eligible voters every year. These rules are based on junk science, are unreliable and unconstitutional. @LawyersComm @acluohio

LEAGUE OF WOMEN VOTERS OF OHIO, A. PHILIP RANDOLPH INSTITUTE OF OHIO, GEORGE W. MANGEN, and CAROLYN E. CAMPBELL,

Plaintiffs,

v.

FRANK LAROSE, in his official capacity as Secretary of State of Ohio,

Defendant.

CASE NO. 20-cv-3843

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

1. Record numbers of Ohio voters will vote by mail in the November 2020 election as a result of the COVID-19 pandemic. Yet thousands of these voters are at risk of disenfranchisement on account of Ohio's process for rejecting, notifying voters of, and allowing voters to cure absentee ballot applications and absentee ballots with signatures deemed to be non-matching. Because the process of matching signatures is error prone and likely to result in erroneously labeling signatures as non-matching, it is imperative that voters are provided adequate notice and an opportunity to cure the rejection of their absentee ballot applications and their ballots. With so many individuals expected to vote by mail for the first time in November, the potential for error is especially high. In the 2018 General Election alone, over seven hundred

It's been 142 days since the murder of Breonna Taylor in the middle of the night while she lay in her own bed. 20 bullets fired. She was struck 5 times. No officer has been charged. No timeline provided by @kyoag for completing the investigation.

Black Americans are dying at disproportionately higher rates from #COVID19. Systemic racism and our government's failure to develop an effective strategy to combat the pandemic are to blame.

Federal Judge Carlton Reeves issues ruling that closes with call for the Supreme Court to END qualified immunity doctrine that shields far too many police officers from accountability for civil rights violations. He describes the doctrine as "unsustainable."

Instead of slamming shut the courthouse doors, our courts should use their power to ensure Section 1983 serves all of its citizens as the Reconstruction Congress intended. Those who violate the constitutional rights of our citizens must be held accountable. When that day comes we will be one step closer to that more perfect Union.

VII. Conclusion

Again, I do not envy the task before the Supreme Court. Overturning qualified immunity will undoubtedly impact our society. Yet, the status quo is extraordinary and unsustainable. Just as the Supreme Court swept away the mistaken doctrine of "separate but equal," so too should it eliminate the doctrine of qualified immunity.

Earlier this year, the Court explained something true about wearing the robe:

> Every judge must learn to live with the fact he or she will make some mistakes; it comes with the territory. But it is something else entirely to perpetuate something we all know to be wrong only because we fear the consequences of being right.[38]

Let us waste no time in righting this wrong.

Officer McClendon's motion is **GRANTED**, and the remaining claim in this matter will be set for trial in due course.

SO ORDERED, this the 4th day of August, 2020.

Meet @SenatorLoeffler who says #BlackLivesMatter is radical, a threat to the nuclear family, that's tearing our country apart. She's a co-owner of a WNBA team.

is more concerned with playing politics than basketball, and I stand by what I wrote in June:

We come together around sports, but promoting a political agenda divides us rather than unites us. The lives of every African American matter, and there's no place for racism in our country. But I oppose the BLM political organization due to its radical ideas and Marxist foundations, which include defunding the police and eroding the nuclear family. On the other hand, our flag represents our values of freedom and equality for all. If we can't unite behind our flag, much less the national anthem during this struggle, then what keeps us together? It's sad to see that there's more interest in tearing our country

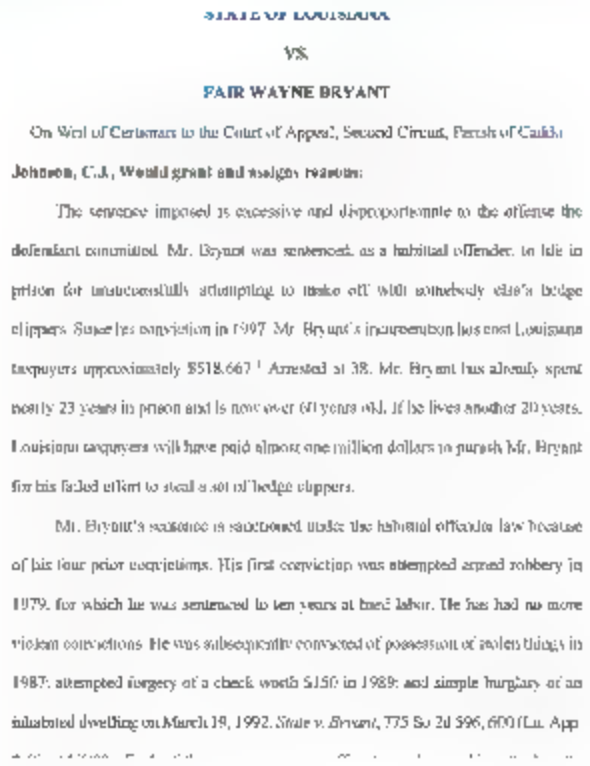
"In the years following Reconstruction, southern states criminalized recently emancipated African American citizens by introducing extreme sentences for petty theft associated with poverty.... [T]his case demonstrates their modern manifestation." Johnson, C.J., dissenting. twitter.com/KristenClarkeJ …



VS

FAIR WAYNE BRYANT

On Writ of Certiorari to the Court of Appeal, Second Circuit, Parish of Caddo

Johnson, C.J., Would grant and assign reasons:

The sentence imposed is excessive and disproportionate to the offense the defendant committed. Mr. Bryant was sentenced, as a habitual offender, to life in prison for unsuccessfully attempting to make off with somebody else's hedge clippers. Since his conviction in 1997 Mr. Bryant's incarceration has cost Louisiana taxpayers approximately $518,667.[1] Arrested at 38, Mr. Bryant has already spent nearly 23 years in prison and is now over 60 years old. If he lives another 20 years, Louisiana taxpayers will have paid almost one million dollars to punish Mr. Bryant for his failed effort to steal a set of hedge clippers.

Mr. Bryant's sentence is sanctioned under the habitual offender law because of his four prior convictions. His first conviction was attempted armed robbery in 1979, for which he was sentenced to ten years at hard labor. He has had no more violent convictions. He was subsequently convicted of possession of stolen things in 1987; attempted forgery of a check worth $150 in 1989; and simple burglary of an inhabited dwelling on March 19, 1992. *State v. This is the first time a Trump post has been removed for COVID-19 misinformation.

Facebook has also in the past removed posts by the Trump campaign which used symbols also used by Nazis.

We are seeking to dissolve the NRA for years of self-dealing and illegal conduct that violate New York's charities laws and undermine its own mission.

The NRA diverted millions of dollars away from its charitable mission for personal use by senior leadership.

Today marks 55 years since the Voting Rights Act was signed into law.

But in 2013, Justice Roberts issued a devastating ruling that weakened the law.

The Senate can honor #JohnLewis by scheduling hearings to restore the Act now.

Setting aside the question of the intent of the electoral system, is it your belief that 34 states will agree to ratify an amendment that would effectively disperse the power to elect the President to about eight to ten states?

Such a basic principle of democracy -- the candidate with the most votes should win. While our sparsely populated states will resist, it's time to start the conversation -- especially when race underlies the system in the way that it does.

But the candidate with the most votes does win - he/she wins that state's electors, underlying the republic of states (yes I am betraying my limited federal gov philosophy here). Considering basic math though, I just don't see any way to 34 on this.

❤️ you and hope you're well!

Here's an idea I've tinkered with over the years that I wonder about more - states reforming their electoral process to award electors to the winner of each congressional district as opposed to winner take all. So whichever POTUS candidate wins FL CD-1 gets one electoral vote.

Hmmm? There is another movement underway. 15 states & D.C., totaling 196 electoral votes, have already passed the Nat'l Popular Vote Interstate Compact. Under the compact, states that combine for at least 270 electoral votes agree to award their electors based on the popular vote

Before we end qualified immunity, VA law should authorize people in VA to sue police in state court. The law must make clear that "qualified immunity" is not a defense to these state lawsuits.

Police should not have this legal shield to hide behind. RT & tag your VA lawmakers.

Kristen Clarke @KristenClarkeJD
Federal Judge Carlton Reeves issues ruling that closes with call for the Supreme Court to END qualified immunity doctrine that shields far too many police officers from accountability for civil rights violations. He describes the doctrine as "unsustainable."

In just a few days, there will soon be more American deaths from #COVID19 (currently 162K) than from U.S. military deaths during World War I (116K) and the Vietnam War (58K) combined.

NEW: SCOTUS, for now, blocks effort in Oregon to ease the signature-gathering thresholds for ballot initiatives in the middle of a #pandemic. Advocates are seeking to have voters decide whether redistricting should be conducted by a non-partisan redistricting commission

(ORDER LIST: 591 U.S.)

TUESDAY, AUGUST 11, 2020

ORDER IN PENDING CASE

20A21 CLARNO, OR SEC. OF STATE v. PEOPLE NOT POLITICIANS, ET AL.

The application for stay presented to Justice Kagan and by her referred to the Court is granted. The district court's July 10 and July 13, 2020 orders granting a preliminary injunction are stayed pending disposition of the appeal in the United States Court of Appeals for the Ninth Circuit and disposition of the petition for a writ of certiorari, if such writ is timely sought. Should the petition for a writ of certiorari be denied, this stay shall terminate automatically. In the event the petition for a writ of certiorari is granted, the stay shall terminate upon the sending down of the judgment of this Court.

The "Southern strategy" was used to increase political support among white voters in the South by appealing to racism against African Americans.

We saw it in 1988 with the use of Willie Horton mugshot ads.

Today, this strategy is on the national stage.

Senators demand that Louis DeJoy account for changes at US Postal Service that have led to longer delivery times for election mail, and urge that he CEASE any further action that makes it harder and more expensive for officials to mail ballots to voters. #SaveUSPS

Louis DeJoy
Postmaster General
U.S. Postal Service
475 L'Enfant Plaza West, S.W.
Washington, DC 20260

Dear Postmaster DeJoy,

We write to express significant concern regarding reports that you are implementing policy changes that will increase the cost for timely delivery of election mail and to urge you not to take any action that makes it harder and more expensive for Americans to vote.

Like voting itself, the U.S. Postal Service (USPS) is vital to our democracy. Since you assumed the role of Postmaster General, there have been disturbing reports regarding changes at USPS that are causing significant delays to the delivery of mail. Under normal circumstances, delayed mail is a major problem – during a pandemic in the middle of a presidential election, it is catastrophic. Instead of taking steps to increase your agency's ability to deliver for the American people, you are implementing policy changes that make matters worse, and the Postal Service is reportedly considering changes that would increase costs for states at a time when millions of Americans are relying on voting by mail to exercise their right to vote.

The National Voter Registration Act of 1993 (NVRA) allows state and local officials to send materials authorized or required under the Act, such as absentee ballot applications, at USPS Nonprofit Marketing Mail prices. These prices are lower than the regular USPS Marketing Mail prices and election officials across the country rely on the lower rates to send voters important election mail in a cost effective manner. Absentee ballots themselves are not specifically covered under the NVRA, however, many jurisdictions receive the lower rate for ballots as well because they utilize the Undeliverable As Addressed (UAA) information driven removal ballots for list maintenance activities prescribed under the NVRA. The practice of mailing out ballots as Marketing Mail has been normalized to the degree that the 2020 Official Election Mail Kit (Kit 603) sent to election officials in January 2020 includes advice on how to decide whether to send ballots by First Class or Marketing Mail.[1]

While First Class mail normally has a delivery standard of 2-5 days, and Nonprofit Marketing Mail has a delivery standard of 3-10 days, it has been the practice of USPS to treat all election mail as First Class mail regardless of the paid class of service.[2] Reports from the USPS Office of the Inspector General (OIG) support the fact that USPS has traditionally prioritized election mail

We won! A federal judge rules that Alamance County, NC officials cannot bar protesters from protesting at the local courthouse. Officials sought to silence people seeking removal of a Confederate monument.

A victory for those protesting racial injustice.

Some are planning to collect absentee ballots for voters in their neighborhood.

Some states have limits on how many absentee ballots people can return. For example, in WV, you can only return 2.

It's a pain, but the laws vary across the country.

We need to do both. We can't be stuck at the last moment because we've been counting on this USPS debacle being resolved. I think it's irresponsible to advocate for not having an alternate plan.

Drop boxes are a safe and secure way for voters to return their ballots. They complement other options for returning ballots.

Trump continues his baseless attacks which are intended to cause chaos and confusion.

Some states use "drop boxes" for the collection of Universal Mail-In Ballots. So who is going to "collect" the Ballots, and what might be done to them prior to tabulation? A Rigged Election? So bad for our Country. Only Absentee Ballots acceptable!

Trump and AG Barr ordered the use of violence against peaceful demonstrators inside Lafayette Square so that Trump could have a photo op.

Glad to see our case, Black Lives Matter DC v Trump, lifted up. We will hold them accountable. #DemConvention

I get that you're skeptical of DeJoy's statement. So am I. But it isn't WHAT he said. It's that he felt he HAD to say it. The point is they're feeling the pressure. If you back off, they go back to what they were doing. Take this as a sign it's working and INCREASE the pressure!

🚨BREAKING: We're suing Louis DeJoy & the #USPS for taking action intended to hijack the 2020 election by causing chaos and massive mail delays.

We'll see Louis DeJoy in court. DeJoy must provide comprehensive remedial relief for the damage that he caused during his 2 months on the job.

Our lawsuit is pending in federal court in Maryland.

Laws on absentee ballots vary

Trump & DeJoy WANT people to abandon the #USPS. We must keep the pressure on the #USPS to do their job.

Some people are talking about returning their ballots by Fed-Ex, UPS...

This is really EXPENSIVE and some state laws prevent private companies from handling absentee ballots.

DeJoy needs to do his job and stop the sabotage.

Big development in the hearing so far: DeJoy has now committed to processing election mail as first class mail regardless of the postage used. CNN had obtained docs showing that this year USPS planned to treat election mail as marketing mail (slower) if it was mailed that way.

Is Louis DeJoy lying under oath? He is claiming he has enough resources to timely delivery mail through the election.

But we have heard from hundreds of voters on our 866-OUR-VOTE hotline who did NOT get their absentee ballots in time for the primaries on his watch.

🚨 URGENT: Please DO NOT develop quick work arounds for returning absentee ballots in your community without knowing the law in your state.

Laws on absentee ballots vary

Trump & DeJoy WANT people to abandon the #USPS. We must keep the pressure on the #USPS to do their job.

Some people are talking about returning their ballots by Fed-Ex, UPS...

This is really EXPENSIVE and some state laws prevent private companies from handling absentee ballots.

DeJoy needs to do his job and stop the sabotage.

The United States Postal Service is NOT a private money-making corporation and should not be compared to Fed-Ex or UPS. It's a government agency, enshrined in the constitution, that serves all Americans.

DeJoy's politicization of the USPS must be condemned.

With a laugh and a smirk, DeJoy claims that he is not making any changes that will slow mail delivery before November.

His words fall flat.

He is clearly conspiring with Trump to hijack the Postal Service. We will see him in federal court in Maryland and hold him accountable.

Trayford Pellerin was beloved by his family and friends. He loved to cook and loved his work. He was coping with mental health issues. The Lafayette community is grieving.

They are protesting his death and have been met with smoke grenades and arrests.

We filed suit against Louis DeJoy last week to hold him accountable for the damage that occurred on his watch. He must account for massive mail delays and ENSURE timely delivery of mail this season.

His empty claims during this hearing ring hollow. #USPS

Louis DeJoy is the first postmaster general in two decades with NO prior experience in the United States Postal Service.

@RepLawrence has 30 years of experience at every level of the #USPS. Despite this, DeJoy declined her request to meet at the start of his tenure. #USPSHearing

.@RepPressley: #USPS employs many veterans and has one of the most diverse work forces in US. 40% are PoC. Many have been disproportionately impacted by #COVID.

Despite this, DeJoy confirms he's pushing early retirement.

These are changes that will hurt vulnerable Americans.

Congress adopted the Fair Housing Act days after the assassination of Dr. Martin Luther King. The goal is to combat racially segregated communities. Horrible to hear the gun-toting McCloskeys promote a racist narrative about people seeking to "invade" their homes. #RNCConvention

This was absolutely one of the most racist moments of the night. The McCloskey's call to preserve single family zoning has roots in racist zoning policies and redlining efforts aimed at keeping communities racially segregated and isolated.

Kenosha city council passed an ordinance in 2017 requiring all officers wear body cams. But they never bought them. They're in the budget.. in 2022. If it weren't for a neighbor's video, the police shooting of Jacob Blake would've vanished & no officers would be held accountable.

It's time to end qualified immunity.

For cops who kill, it has become virtually impossible to hold them liable for their conduct. In a review of 529 appeals court rulings from the 5th Circuit, cops were granted immunity in 64% of cases.

In April 1968, #JacobBlake's grandfather led multiple marches through Evanston, IL to mourn the passing of Dr. King and to fight for an end to housing segregation.

Too often, we see character assassination of Black people subject to police violence. Jacob Blake's life matters.

mittee of the Evanston city council recommended yesterday that a second and stronger open housing ordinance be prepared and presented at tomorrow's council meeting.

Ald. Arnold F. Willner (2d), a committee member, said the proposed ordinance would affect home and apartment owners. The present ordinance bans discrimination in sale or rental of homes by brokers.

Would Ban Bias

The new ordinance would ban discrimination in renting or selling a home on the basis of race or religion. The ordinance would exempt religious organizations or persons renting rooms.

A stronger ordinance was urged in demonstrations in Evanston last week. Yesterday, after the city council committee met, 300 persons

VICTORY! Kennesaw State Univ. relents, will respect 1st Amendment rights of cheerleaders who #TakeTheKnee, following @LawyersComm action.

Dear Students, Faculty and Staff:

As President, it is my responsibility to ensure that Kennesaw State University remains committed to providing a safe and welcoming environment and that our actions ensure this charge.

While I believe there are more effective ways to initiate an exchange of ideas on issues of national concern, the right to exercise one's freedom of speech under the First Amendment must be protected.

After much reflection, I have decided that at Kennesaw State's next home game on November 11, the pre-game program will be restored to its original format, with the cheerleaders taking the field before the singing of the National Anthem. I will stand during the National Anthem to honor the women and men who have served in our nation's armed forces. While I choose this action, I do not believe that this debate has to be a choice between honoring our veterans and protecting the freedom of speech. We must be able to do both.

It is my hope that the engagement with students that has begun on campus will produce a constructive dialogue that leads to a greater recognition of and respect for all opinions.

Sincerely,

Samuel S. Olens
President

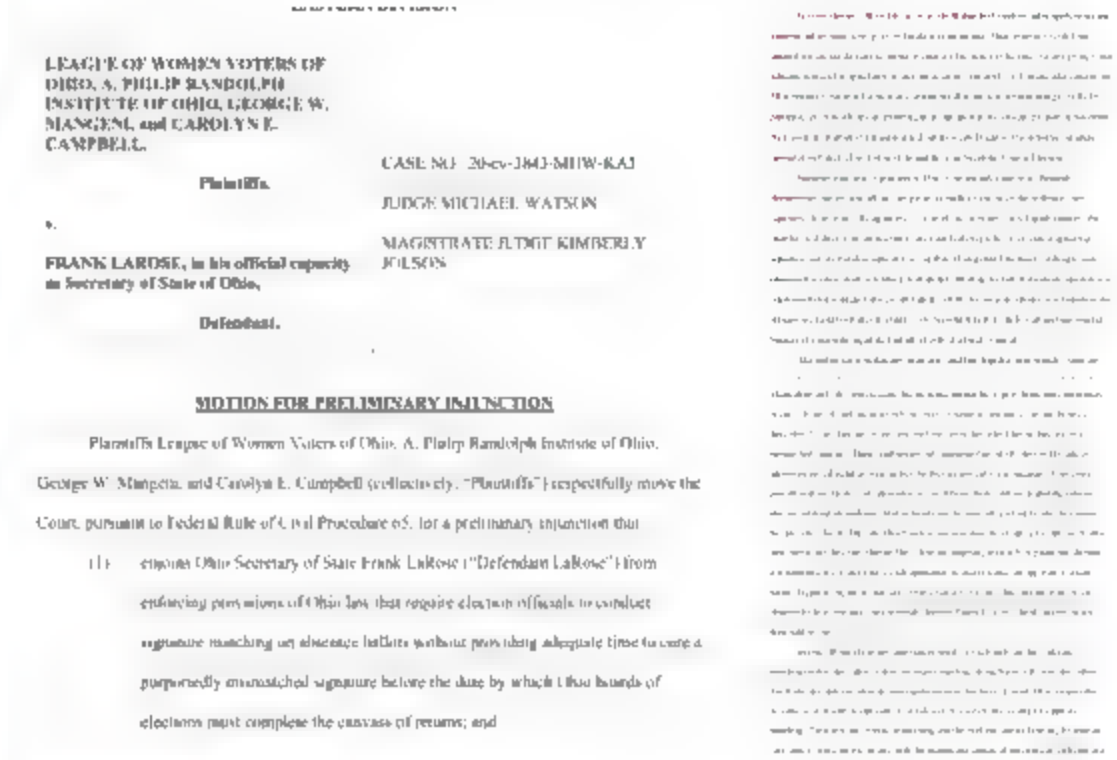
BREAKING: We're in court fighting to protect the rights of voters in #Ohio amid the #COVID pandemic. Alleged signature mismatch is often used as an excuse to disenfranchise voters. Officials are using junk science to deny voters voice and we're fighting to stop this. @LawyersComm



LEAGUE OF WOMEN VOTERS OF OHIO, A. PHILIP RANDOLPH INSTITUTE OF OHIO, GEORGE W. MANGENI, and CAROLYN E. CAMPBELL,

Plaintiffs,

v.

FRANK LAROSE, in his official capacity as Secretary of State of Ohio,

Defendant.

CASE NO. 20-cv-3843-MHW-KAJ

JUDGE MICHAEL WATSON

MAGISTRATE JUDGE KIMBERLY JOLSON

MOTION FOR PRELIMINARY INJUNCTION

Plaintiffs League of Women Voters of Ohio, A. Philip Randolph Institute of Ohio, George W. Mangeni, and Carolyn E. Campbell (collectively, "Plaintiffs") respectfully move the Court, pursuant to Federal Rule of Civil Procedure 65, for a preliminary injunction that

(1) enjoins Ohio Secretary of State Frank LaRose ("Defendant LaRose") from enforcing provisions of Ohio law that require election officials to conduct signature matching on absentee ballots without providing adequate time to cure a purportedly mismatched signature before the date by which Ohio boards of elections must complete the canvass of returns; and

Signature mismatch claims are a form of #VoterSuppression and totally arbitrary.

In Lucas Cty, OH, officials rejected about 5% of all absentee ballots in the 2018 midterm while Sandusky Cty. rejected 0.5% of all absentee ballots cast in that county.

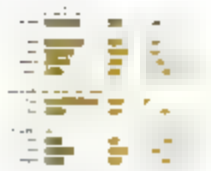
This is a point that and other civil rights advocates have been raising since the beginning: Given the history, a lot of Af-Am voters want deliver their ballot themselves and know their mail ballots tend to get rejected more often.



Brad Jones @B_radJ_ones
Our latest analysis shows that among Biden voters, those who are Black are much less likely than those of other races/ethnicities to say would prefer to vote by mail (1/2)

How can you watch this and deny that racism exists? White men with guns are engaged by police with no fear, while a Black man with no gun was shot 7 times in the back. Truth is on display. Calling for strategy, dismantling, organization, commitment and leadership.

Anthony Huber and Joseph Rosenbaum were killed in #Kenosha.

According to Tucker Carlson, we shouldn't be that surprised that Kyle Rittenhouse had to "maintain order". Carlson is justifying these murders.

BREAKING: We just sued Ohio for BANNING officials from having more than one ballot drop box per county across the state. This is #VoterSuppression amid the pandemic. This grossly disadvantages voters in counties with large populations and ignores the current #USPS mail delays.

A. PHILIP RANDOLPH INSTITUTE OF OHIO, LEAGUE OF WOMEN VOTERS OF OHIO, OHIO STATE CONFERENCE OF THE NAACP, BEATRICE GRIFFIN, SARAH RITTENS, ELLEN CONNALLY, MATTHEW NOWLIN, RYLIE JESIONOWSKI, SCOTT COLLINS, and MARCUS GERMANY,

CASE NO

COMPLAINT

I. As a time when the vast majority of Ohio voters are expected to vote absentee by mail this general election because of the COVID-19 pandemic, and the United States Postal Service ("USPS") is experiencing unprecedented delays, Ohio Secretary of State Frank LaRose's directive limiting each Ohio county to a single secure drop box for absentee applications and ballots in the 2020 election unconstitutionally burdens Plaintiffs' right to vote. Simply put, absent immediate injunctive relief, hundreds of thousands of Ohioans stand to have their votes suppressed because of Defendant LaRose's action depriving Ohioans of a sufficient number of

The one ballot drop box per county rule is patently unfair and discriminatory.

- Cuyahoga County, which is 30% Black and has a population of 850,000 would have 1 box.

- Vinton County which has 8300 people and is less than 1% Black would have 1 drop box.

This was absolutely one of the most racist moments of the night. The McCloskey's call to preserve single family zoning has roots in racist zoning policies and redlining efforts aimed at keeping communities racially segregated and isolated.

This was absolutely one of the most racist moments of the night. The McCloskey's call to preserve single family zoning has roots in racist zoning policies and redlining efforts aimed at keeping communities racially segregated and isolated.

15 yrs ago today, over 1800 people died in #HurricaneKatrina, a national tragedy.

A moment to remember that Florida's Gov. DeSantis named Michael Ertel as his first chief election official. Ertel resigned after being exposed for posing in blackface as a Katrina victim.

The people being arrested for vandalism, rioting and arson after the protests are not Black Lives Matter or "Antifa." Report after report names Boogaloo & Proud Boys style white nationalists trying to scare white people onto their side and anarchists, who attach to any protest.

We in media need to be much more precise in how we're talking about the legitimate, peaceful protests against police violence and the mostly nighttime vandalism and mayhem that no report I've seen has tied to BLM; while in multiple cities it's the white nationalist right.

Joy Reid @JoyAnnReid · 48s

What would even be the point of Black Lives Matter committing mayhem?? The Black protesters among them are statistically more likely to be shot when police arrive, and they were polling well among white Americans. Use your logic. Who besides Trump benefits from any violence?

This is #DijonKizzee, 29 yrs old and shot and killed by LA Sheriffs after being stopped for a bike violation. Cops handcuffed his lifeless body. While police investigations can drag on for months/years, cops have already claimed he ran away, and dropped clothes and a gun. #BLM

This is #DijonKizzee, 29 yrs old and shot and killed by LA Sheriffs after being stopped for a bike violation. Cops handcuffed his lifeless body. While police investigations can drag on for months/years, cops have already claimed he ran away, and dropped clothes and a gun. #BLM

States totaling 196 electoral votes have entered the National Popular Vote Compact to make the electoral college obsolete (that's 73% of total needed to trigger the compact into existence).

BREAKING: NY Lawsuit challenging the administration's 11th hour citizenship question on #2020census will proceed.

Court rules against Trump administration on most points in its motion to dismiss and notably finds likelihood that decision was motivated by "discriminatory animus.

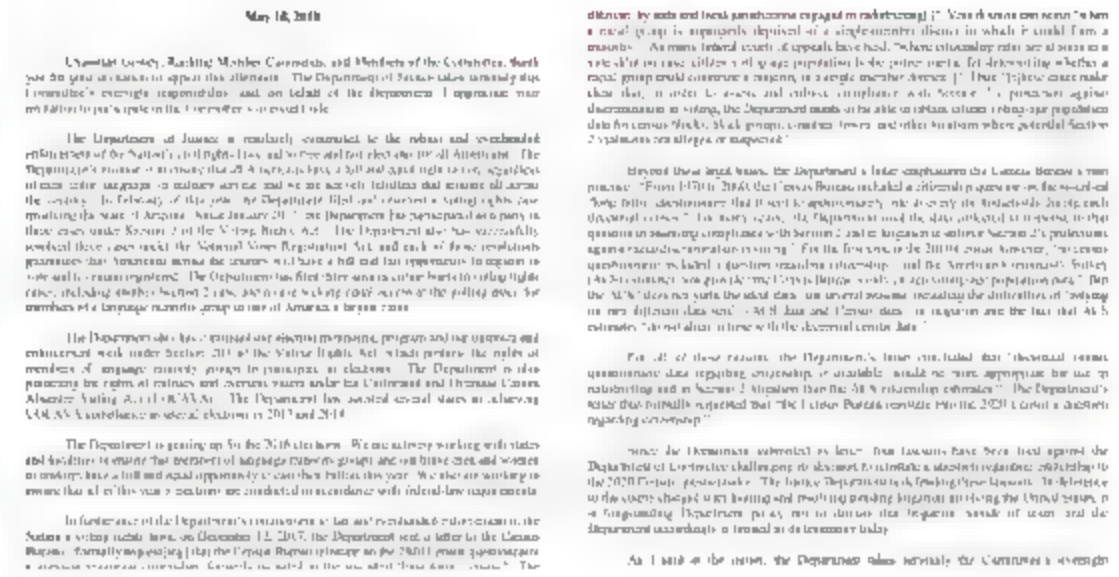
Accordingly, their equal protection claim under the Due Process Clause (and Plaintiffs' APA claims, which Defendants did not substantively challenge) may proceed. None of that is to say that Plaintiffs will ultimately prevail in their challenge to Secretary Ross's decision to reinstate the citizenship question on the 2020 census. As noted, the Enumeration Clause and the Census Act grant him broad authority over the census, and Plaintiffs may not ultimately be able to prove that he exercised that authority in an unlawful manner. Put another way, the question at this stage of the proceedings is not whether the evidence supports Plaintiffs' claims, but rather whether Plaintiffs may proceed with discovery and, ultimately, to summary judgment or trial on their claims. John Gore, acting head of DOJ's Civil Rights Division, gives testimony on #census2020. His claim that the 11th hour addition of a citizenship question will not have a chilling effect on participation in the Census is baseless. That's why we sued this administration. @LawyersComm



May 18, 2018

Dear Ms. Gore, Ranking Member Cummings, and Members of the Committee, thank you for giving me the opportunity to appear this afternoon. The Department of Justice takes seriously this Committee's oversight responsibilities and, on behalf of the Department, I appreciate your invitation to participate in this hearing. [illegible]

The Department of Justice is resolutely committed to the robust and evenhanded enforcement of the nation's civil rights laws, and we are fully dedicated to [illegible]

The Department's mission is simple: the 28 U.S.C. § 516, a full and equal right to vote, regardless of race, color, language or military service, and we are actively [illegible] that ensure all across the country. In February of this year, the Department filed [illegible] voting rights case challenging the state of Virginia's [illegible] January 20[illegible]. The Department has participated as a party in three cases under Section 2 of the Voting Rights Act. The Department also has successfully resolved three cases under the National Voter Registration Act, and each of these resolutions guarantees that Americans across the country will have a full and fair opportunity to register to vote and to remain registered. The Department has filed Statements of Interest to help [illegible] voting rights cases, including another Section 2 case, and we are actively [illegible] across the country. In addition, the Department has [illegible] members of a language minority group in the state of Arizona's [illegible]

The Department also has [illegible] election monitoring, [illegible] and [illegible] enforcement work under Section 203 of the Voting Rights Act, which protects the rights of members of language minority groups to participate in elections. The Department is also protecting the rights of military and overseas voters under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA). The Department has assisted several states in achieving UOCAVA [illegible] in several elections in 2013 and 2014.

The Department is gearing up for the 2018 elections. We are actively working with states and localities to ensure the protection of language minority groups and will have staff and resources to monitor, [illegible] and [illegible] this year. We also are working to ensure that all of the work we undertake is in accordance with federal law requirements.

In furtherance of the Department's commitment to the universal enforcement of the nation's voting rights laws, on December 12, 2017, the Department sent a letter to the Census Bureau formally requesting that the Census Bureau reinstate on the 2020 Census questionnaire a citizenship question [illegible]. The Department's request was prompted by the Census Bureau's announcement that it was considering [illegible] the 2020 Census questionnaire. Specifically, the Census Bureau announced that it was considering [illegible] the 2020 Census questionnaire

Election officials have enough to deal with in 2020 with poll worker shortages and historic numbers of people voting absentee b/c of the pandemic.

It's shameful that NC state election officials need to waste time and energy warning the public to REJECT Trump's vote-twice scheme.

Intelligence and Analysis:

"Russia Likely to Continue Seeking to Undermine Faith in US Electoral Process...

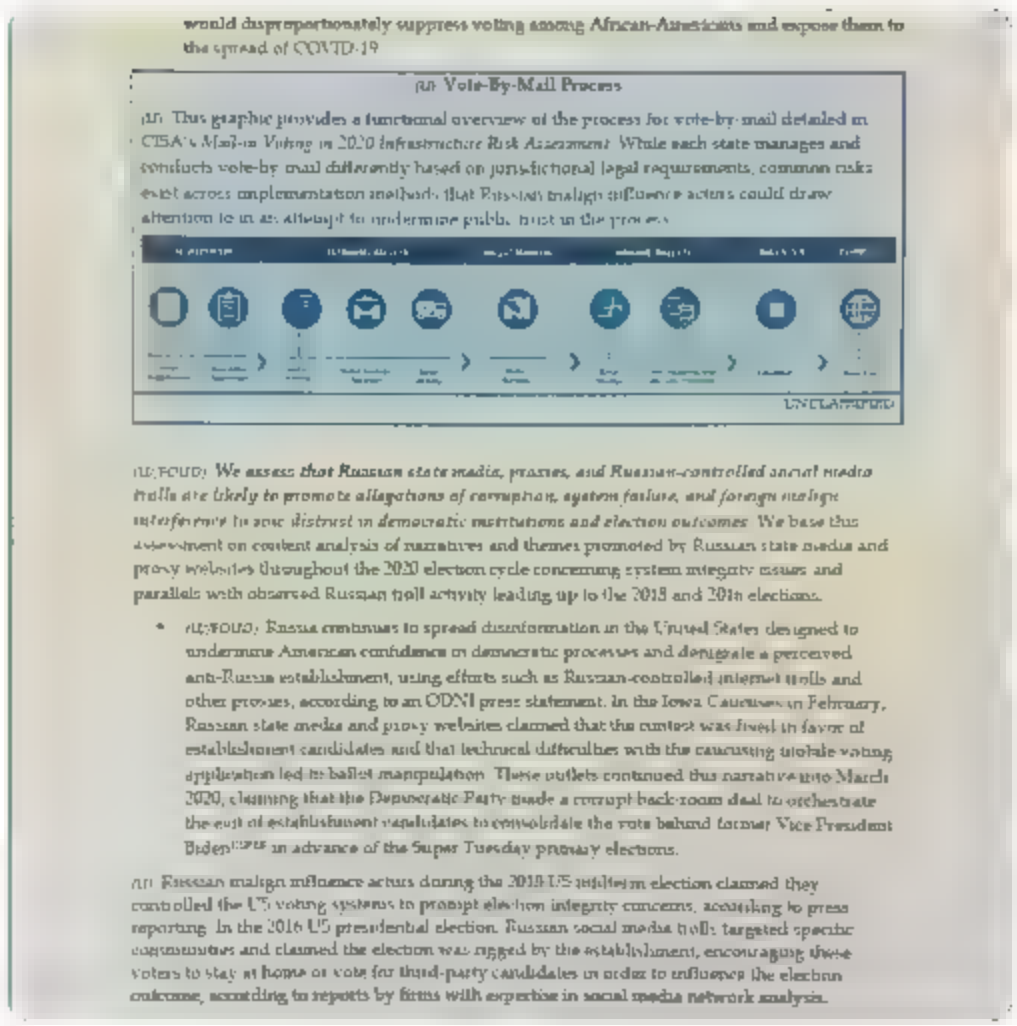
2/ "We assess that Russia is likely to continue amplifying criticisms of vote by mail and shifting voting processes amidst the COVID-19 pandemic to undermine public trust in the electoral process," it says.



would disproportionately suppress voting among African-Americans and expose them to the spread of COVID-19

(U) Vote-By-Mail Process

(U) This graphic provides a functional overview of the process for vote-by-mail detailed in CISA's *Mail-in Voting in 2020 Infrastructure Risk Assessment*. While each state manages and conducts vote-by-mail differently based on jurisdictional legal requirements, common risks exist across implementation methods that Russian malign influence actors could draw attention to in an attempt to undermine public trust in the process.

UNCLASSIFIED

(U//FOUO) *We assess that Russian state media, proxies, and Russian-controlled social media trolls are likely to promote allegations of corruption, system failure, and foreign malign interference to sow distrust in democratic institutions and election outcomes.* We base this assessment on content analysis of narratives and themes promoted by Russian state media and proxy websites throughout the 2020 election cycle concerning system integrity issues and parallels with observed Russian troll activity leading up to the 2018 and 2016 elections.

- (U//FOUO) Russia continues to spread disinformation in the United States designed to undermine American confidence in democratic processes and denigrate a perceived anti-Russia establishment, using efforts such as Russian-controlled internet trolls and other proxies, according to an ODNI press statement. In the Iowa Caucuses in February, Russian state media and proxy websites claimed that the contest was fixed in favor of establishment candidates and that technical difficulties with the caucusing mobile voting application led to ballot manipulation. These outlets continued this narrative into March 2020, claiming that the Democratic Party made a corrupt back-room deal to orchestrate the exit of establishment candidates to consolidate the vote behind former Vice President Biden[1][2] in advance of the Super Tuesday primary elections.

(U) Russian malign influence actors during the 2018 US midterm election claimed they controlled the US voting systems to prompt election integrity concerns, according to press reporting. In the 2016 US presidential election, Russian social media trolls targeted specific communities and claimed the election was rigged by the establishment, encouraging these voters to stay at home or vote for third-party candidates in order to influence the election outcome, according to reports by firms with expertise in social media network analysis.

On June 6, 2020, Trump issued an executive order authorizing taxpayer dollars to promote religious freedom.

In fact, he made it mandatory that foreign service employees take religious freedom training once every 3 years.

Such hypocrisy.

Sec. 5. Training for Federal Officials. (a) The Secretary shall require all Department of State civil service employees in the Foreign Affairs Series to undertake training modeled on the international religious freedom training described in section 708(a) of the Foreign Service Act of 1980 (Public Law 96-465), as amended by section 103(a)(1) of the Frank R. Wolf International Religious Freedom Act (Public Law 114-281).

(b) Within 90 days of the date of this order, the heads of all agencies that assign personnel to positions overseas shall submit plans to the President, through the Assistant to the President for National Security Affairs, detailing how their agencies will incorporate the type of training described in subsection (a) of this section into the training required before the start of overseas assignments for all personnel who are to be stationed abroad, or who will deploy and remain abroad, in one location for 30 days or more.

(c) All Federal employees subject to these requirements shall be required to complete international religious freedom training not less frequently than once every 3 years.

On March 2019, Trump issued another executive order to protect dangerous extremists seeking to exploit college campuses to recruit students and spread bigotry. Their visits were divisive and inciteful and sometimes led to cancellations to protect student safety.

Ok for Trump.

Accountability at Colleges and Universities

EDUCATION Issued on: March 21, 2019

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Purpose. The purpose of this order is to enhance the quality of postsecondary education by making it more affordable, more transparent, and more accountable. Institutions of higher education (institutions) should be accountable both for student outcomes and for student life on campus.

In particular, my Administration seeks to promote free and open debate on college and university campuses. Free inquiry is an essential feature of our Nation's democracy, and it promotes learning, scientific discovery, and economic prosperity. We must encourage institutions to appropriately account for this bedrock principle in their administration of student life and to avoid creating environments that stifle competing perspectives, thereby potentially impeding beneficial research and undermining learning.

Such hypocrisy.

Trump doesn't want schools teaching about our history of slavery and he doesn't want gov't sponsored trainings on anti-racism.

At the same time, he ignores police shootings of unarmed Black people and turns a blind eye to white extremism.

If Louis DeJoy indeed pushed employees to donate to a campaign and promised to reimburse them, this could be a criminal Straw Donor scheme.

@DineshDSouza pled GUILTY of this very crime in 2012 and was pardoned by Trump in 2018.

DeAunta Terrell Farrow should be celebrating his 26th birthday today.

DeAunta was carrying a toy gun when gunned down by West Memphis cops at age 12. He has just finished 6th grade.

The cop who killed him, Erik Sammis, holds himself out as a "firearms instructor" today. #BLM

Thought exercise. Imagine a pro-police rally. And a car filled w/ Black Lives Matter protestors plows through the crowd. They track down the driver. Interview him. Let him go. Days later, the NYPD is still trying to decide whether a crime was committed. Can't imagine it, right?

BREAKING: Victory tonight for voters in Tennessee! A federal court BLOCKED the state's unreasonable rule denying first time registered voters access to absentee ballots and requiring them to show up in person in 2020. No voter should be locked out uring the #COVID19 pandemic.

PRELIMINARY INJUNCTION ORDER

Pending before the Court is Plaintiffs' Motion for Preliminary Injunction (Doc. No. 40, "Motion"). The Court has issued three Orders (Doc. Nos. 55, 66, and 77) denying the Motion in part.[1] Reasoning for decision is Plaintiffs' request that the Court enjoin enforcement of Tenn. Code Ann. § 2-2-115(b)(7) to the extent it provides, "Each person who registers by mail shall appear in person to vote in the first election for person votes or after such registration becomes effective." ("first-time voter requirement").[2]

[1] Previously, the Court denied Plaintiffs' request for the relief it sought at preliminary injunction hearing before the August 6, 2020 election (Doc. No. 55), denied Plaintiffs' request to preliminarily enjoin Tenn. Code Ann. § 2-6-202(c) and (Doc. No. 66); and denied Plaintiffs' request to preliminarily enjoin Tenn. Code Ann. §§ 2-6-202(g) and 2-6-204 (Doc. No. 77). As for the second of these denials, the Court adhered to its earlier order (Doc. No. 73) denying Plaintiffs' motion (Doc. No. 68) to reconsider it.

[2] As explained in the accompanying Memorandum Opinion and Order, Plaintiffs as well as election

It is no accident that the Trump administration has been as white and male as it has been. This has also been a consistent pattern with lifetime judicial nominations.

Meanwhile this administration has the nerve to PROHIBIT government-sponsored trainings on anti-racism.

As we prepare to mark 9/11 and remember lives lost, important to remember that the gravest threat to Americans today is violent white supremacy. And this administration seeks to hide this fact from the public.

> In May 2020 and June 2020, Mr. Murphy had several meetings with Mr. Cuccinelli regarding the status of the HTA [Homeland Threat Assessment]. Mr. Cuccinelli stated that Mr. Murphy needed to specifically modify the section on White Supremacy in a manner that made the threat appear less severe, as well as include information on the prominence of violent "left-wing" groups. Mr. Murphy declined to make the requested modifications, and informed Mr. Cuccinelli that it would constitute censorship of analysis and the improper administration of an intelligence program.

Racial tensions in Boston persisted. In 1976, a Black lawyer, Ted Landsmark, was heading to Boston's city hall when he was attacked by a mob after accidentally walked into an anti-busing protest. One violent protester lunged at him with the sharp point of a flagpole.

School desegregation efforts in Boston led to white flight.

In 1974, white students made up over 50% of the 86,000 students in Boston's public schools. By 2014, that number dropped to 14%.

Black people are about 3.6X more likely to be arrested for marijuana possession even though usage rates are comparable along lines of race.

As states legalize and the cannabis industry grows, these racial injustices MUST be addressed. And, yes, time to legalize.

A whistleblower at ICE today exposed that mass hysterectomies are being performed on detained immigrants. If it sounds like a horror show, that's because it is. Gender oppression has a direct correlation with authoritarianism. This is beyond. The vicious cruelty is staggering.

Only despots encourage this kind of dehumanization. It not only terrorizes those in their control but it's designed to render people speechless. To recoil and avert the eyes. It's imperative to resist that urge. Talk about what Trump is doing to these women to everyone you know.

Mass hysterectomies have a long and ugly history.

Fannie Lou Hamer received a forced hysterectomy by a white doctor without her consent while having surgery to remove a uterine tumor. Forced sterilization of Black women was viewed as a weapon to reduce the Black population.

OTD 1963, 4 little Black girls are killed after a dozen sticks of dynamic exploded inside the 16th Street Baptist Church in #Birmingham Alabama. We honor them.

This racist bombing was carried out by Klansmen.

Sadly, violent white supremacy remains a threat in our nation today.

> level. There are already over 968,000 absentee ballot requests on file for the general election, and those ballots must be sent to voters by September 17, 2020. Creating and printing ballots is a lengthy and laborious process. Almost all Wisconsin counties use specialized private vendors to print their ballots, and only a small number of those vendors are available. In order to meet the September 17, 2020 deadline, counties have been working to distribute ballots to municipalities earlier than usual, and municipalities may begin sending ballots to voters as soon as they receive them from their counties.

The Trump administration has had one of the least diverse administrations in modern time.

24 people lead the Trump administration. 3 are Asian, Black or Hispanic.

President Trump's cabinet is more white and male than any first cabinet since President Ronald Reagan's.

Mass hysterectomies have a long and ugly history.

Fannie Lou Hamer received a forced hysterectomy by a white doctor without her consent while having surgery to remove a uterine tumor. Forced sterilization of Black women was viewed as a weapon to reduce the Black population.

Replacing "developed nation" with "westernized democracy."

Why? Because "developed" is a loaded term and us often code for "white" or "capitalist."

Replacing "food desert" with "food apartheid system."

Why? Because desert implies an accidental, almost natural occurrence, when what is true is that the degree to which various communities have access to healthy food that is by design.

The right to protest is protected under the First Amendment.

But AG Bill Barr says that #BLM protesters should be charged with sedition or plotting to overthrow the government.

This is democracy on edge.

In the 2000s, an international team evaluated U.S. anticorruption systems. Members expressed concern that our career prosecutors reported to political appointees. They feared political appointees might try to influence prosecutions.

Bill Barr now says that's what should happen!

That should horrify everyone. The politicization of prosecutions is the key to selectively prosecuting political opponents of the regime and protecting allies. It is what happens in authoritarian countries. Any country in which it happens cannot function as a legitimate republic.

There are 9500 attorneys who work at the Justice Department, many of them are dedicated career attorneys who have enforced the law across Democratic and Republican administrations. Barr labeling them "junior" and "preschoolers" is an atrocious insult.

> **Matt Zapotosky** @mattzap

Trump supports handouts for corporate America's white collar elite but turns his back on vulnerable blue collar workers who put themselves at risk every day.

Note -- our USPS workforce is about 20% African American and in cities like Chicago they make up 75-80% of workers.

Supreme Court Justice Antonin Scalia:

"Today our country lost an unwavering champion of a timeless document that unites each of us as Americans. Justice Scalia's fidelity to the Constitution was rivaled only by the love of his family: his wife Maureen his nine children, and his many grandchildren. Been asking myself WHY we're losing our heroes this year? Im thinking maybe the time for hero worship is ending. Those singular souls cannot carry all the weight. We must EACH step into being heroes of our own community. Democracy needs us ALL. The word MEANS power by the people.

This is shameful in so many respects. The 2020 election season is underway and @SenCoryGardner is consenting to confirm a judge who has not even been identified.

"That is why the next president of the United States should have the opportunity to fill the vacancy on the Supreme Court. Our next election is too soon and the stakes are too high; the American people deserve a role in this process..." - Cory Gardner in 2016 #Hypocrisy

Gardner Statement on Supreme Court Nominee

Washington, DC – Senator Cory Gardner (R-CO) today released the below statement after President Obama announced he is nominating Merrick Garland, chief judge of the U.S. Court of Appeals for the D.C. Circuit, to fulfill the vacancy on the Supreme Court.

"We stand at a pivotal point in our nation's history. The Obama Administration continues to use the judicial and regulatory systems to push through its legislative agenda, shifting the balance of power that our Founders established," said Gardner. "That is why the next president of the United States should have the opportunity to fill the vacancy on the Supreme Court. In 1992, even then-Senator Joe Biden stated the Senate should not hold confirmation hearings for a Supreme Court nominee until after that year's presidential election. Our next election is too soon and the stakes are too high. The American people deserve a role in this process as the next Supreme Court justice will influence the direction of the country for years to come."

Today, 1.6M people in #Florida can't vote b/c of a felony conviction, incl. more than 1 in 5 African Americans. Florida is the worst offender when it comes to "felon disenfranchisement." It's time to put these racist laws from a bygone era to rest. #Election2017

10 former federal judges weigh in to urge the Senate to hold off filling RBG's seat until after whoever wins in November is sworn in.

"It is up to you to demonstrate the same restraint demanded of our judiciary."

Via @POGOBlog: pogo.org/letter/2020/09

…

Majority Leader, United States Senate
317 Russell Senate Office Building
Washington, D.C. 20510

The Honorable Charles Schumer
Minority Leader, United States Senate
322 Hart Senate Office Building
Washington, DC 20510

Dear Majority Leader McConnell, Minority Leader Schumer, and Members of the United States Senate,

As former federal judges, we are uniquely aware that the branch of government in which we all once labored to serve has fewer ties to the public than any other. Its legitimacy is largely derived from the public's faith that its decision-making is fair and free. Unlike the other two branches, the judiciary cannot survive without the support of the government, as it does not wield any army or police to enforce its orders.

But the public's acceptance of the rule of law also depends, at least in part, on the fairness and impartiality of the Court's decision-making. It is, in large measure, from the decisions made by the Senate in the judicial confirmation process. The confirmation process can be an extraordinary influence over the public's perception and understanding of the role of courts and judges in our society.

This is why we implore Senators to exercise restraint. Our nation is on the precipice of a national election unlike any in the grip of a global pandemic. Our citizenry is sharply polarized—a disturbing sign for the health of any democracy. The political confirmation process has increasingly become dangerously polarized. Injecting a bruising Court confirmation fight into the midst of this election season will add further fuel to the public's lack of faith in the rule of law.

For the sake of the Court, we respectfully ask that you withhold consideration of any Supreme Court nominee until after the inauguration of the president chosen by the American people. The legitimacy of the Supreme Court is too important for it to be viewed as a mere political prize. It is up to you to demonstrate the same restraint demanded of our judiciary.

Trump refusing to commit to a peaceful transfer of power after the election --

"We're going to have to see what happens."

Anyone who cares about elections should be outraged. Trump's statement conveys lack of respect for core principles of our democracy.

Trump is spending the weekend attacking vote by mail. Given the current pandemic, VBM is critical to protecting voter access in the #2020election. We also need expanded early voting & in-person options on Election Day.

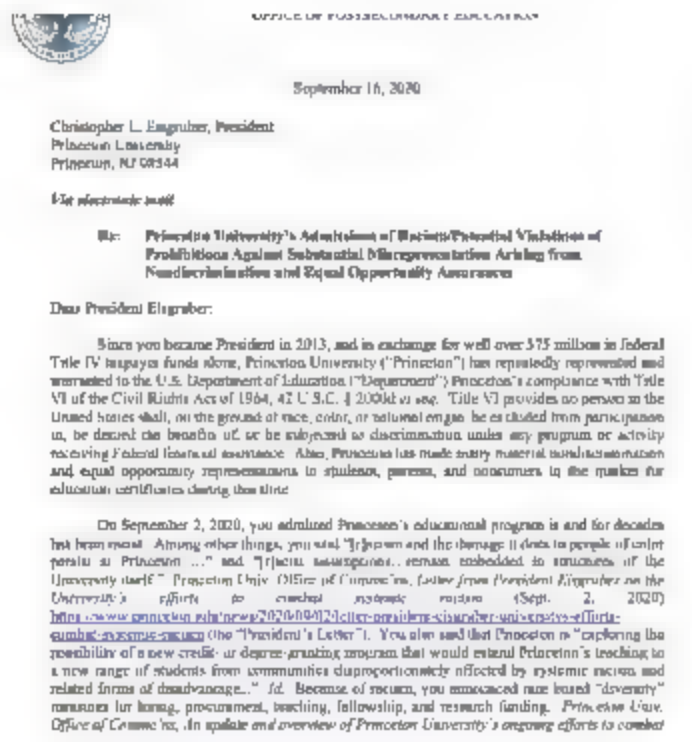
icymi, Princeton University's President concedes that it is an institution that was built on systemic racism and vows to address it.

Trump administration responds by threatening to clawback federal funding.

The Trump/DeVos attempt to whitewash history is shameful.



September 16, 2020

Christopher L. Eisgruber, President
Princeton University
Princeton, NJ 08544

Via electronic mail

Re: Princeton University's Admissions and Potential Violations of Prohibitions Against Substantial Misrepresentations Arising from Nondiscrimination and Equal Opportunity Assurances

Dear President Eisgruber:

Since you became President in 2013, and in exchange for well over $75 million in federal Title IV taxpayer funds alone, Princeton University ("Princeton") has repeatedly represented and warranted to the U.S. Department of Education ("Department") Princeton's compliance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d *et seq.* Title VI provides no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Also, Princeton has made many material misrepresentations and equal opportunity representations to students, parents, and consumers in the market for education certificates during this time.

On September 2, 2020, you admitted Princeton's educational program is and for decades has been racist. Among other things, you said "[r]acism and the damage it does to people of color persists at Princeton ..." and "[r]acist assumptions...remain embedded in structures of the University itself." Princeton Univ. Office of Communications, *Letter from President Eisgruber on the University's efforts to combat systemic racism* (Sept. 2, 2020) https://www.princeton.edu/news/2020/09/02/letter-president-eisgruber-university-efforts-combat-systemic-racism (the "President's Letter"). You also said that Princeton is "exploring the possibility of a new credit- or degree-granting program that would extend Princeton's teaching to a new range of students from communities disproportionately affected by systemic racism and related forms of disadvantage..." *Id.* Because of racism, you announced race based "diversity" measures for hiring, procurement, teaching, fellowship, and research funding. *Princeton Univ. Office of Communic'ns, An update and overview of Princeton University's ongoing efforts to combat*

The recession has essentially ended for high-income individuals. Meanwhile, the bottom half of American workers represented almost 80% of the jobs still missing.

We should expect more of the same from this Justice Department in the weeks ahead -- politicization of DOJ to its core and unnecessary intervention in local election matters.

Meanwhile, this Justice Department has done virtually NOTHING to enforce the Voting Rights Act.

Middle District of Pennsylvania

FOR IMMEDIATE RELEASE — Thursday, September 24, 2020

Revised Statement Of U.S. Attorney Freed On Inquiry Into Reports Of Potential Issues With Mail-In Ballots

HARRISBURG - On Monday, September 21, 2020, at the request of Luzerne County District Attorney Stefanie Salavantis, the Office of the United States Attorney along with the Federal Bureau of Investigation, Scranton Resident Office, began an inquiry into reports of potential issues with a small number of mail-in ballots at the Luzerne County Board of Elections.

Since Monday, FBI personnel working together with the Pennsylvania State Police have conducted numerous interviews and recovered and reviewed certain physical evidence. Election officials in Luzerne County have been cooperative. At this point we can confirm that a small number of military ballots were discarded. Investigators have recovered nine ballots at this time. Some of those ballots can be attributed to specific voters and some cannot. Of the nine ballots that were discarded and then recovered, 7 were cast for presidential candidate Donald Trump. Two of the discarded ballots had been resealed inside their appropriate envelopes by Luzerne elections staff prior to recovery by the FBI and the contents of those 2 ballots are unknown.

Our inquiry remains ongoing and we expect later today to share our up to date findings with officials in Luzerne County. It is the vital duty of government to ensure that every properly cast vote is counted.

The judge's order reads like a reality TV show of the inner workings and deliberations at the Census Bureau.

It definitely shows where the Commerce Department interjected itself to shorten the timelines.

Laquan McDonald should be celebrating his 23rd birthday today.

McDonald, at the age of 17, was shot 16 times by a white police officer in Chicago.

The State AG found that the Chicago Police Department, at that time, had a culture of "excessive violence." #LaquanMcDonald

Dear Senator

We, the undersigned attorneys from across the legal profession, urge the Senate to postpone consideration of the next United States Supreme Court nominee until after the federal election on January 20, 2021. As members of the private bar, we expect and rely upon the Senate to apply the same standards we mandate of lawyers and counsel the responsibly and to reinforce the legitimacy of our courts in upholding the rule of law.

This case, Elston v. County of Kane, speaks volumes about Amy Coney Barrett's views on criminal justice, police violence and police accountability.

We can expect that she will likely side with law enforcement over those subject to excessive force and violence.

Florida voters resoundingly approved a ballot measure that restores the right to vote for 1.2M people.

Rather than carrying out the will of the people, officials now want to 'consult' with lawmakers for guidance on how to implement.

This is obstruction.

🚨 BREAKING: KY Attorney General Daniel Cameron says he *will* release grand jury recording in #BreonnaTaylor case on Wednesday.

Here's his full statement:

to allow that to happen.
As the special prosecutor, our team has an ethical obligation not to release the recording from the Grand Jury proceedings, and we stand by our belief that such a release could compromise the ongoing federal investigation and could have unintended consequences such as poisoning the jury pool.
Despite these concerns, we will comply with the Judge's order to release the recording on Wednesday.
The release of the recording will also address the legal complaint filed by an anonymous grand juror.

We have no concerns with grand jurors sharing their thoughts on our presentation because we are confident in the case we presented. Once the public listens to the recording, they will see that over the course of two-and-a-half days, our team presented a thorough and complete case to the Grand Jury. Our prosecutors presented all of the evidence, even though the evidence supported that Sergeant Mattingly and Detective Cosgrove were justified in their use of force after having been fired upon by Kenneth Walker. Trump says "I'm urging my supporters to go into the polls & watch very carefully because that's what has to happen." Says "bad things happen in Philadelphia."

This is a clear #VoterSuppression tactic aimed at Black and brown voters in Philly. #Debate2020

Trump supports handouts for corporate America's white collar elite but turns his back on vulnerable blue collar workers who put themselves at risk every day.

Note -- our USPS workforce is about 20% African American and in cities like Chicago they make up 75-80% of workers.

1,828 detainees at a prison facility in Marion, Ohio have tested positive for #coronavirus. That's 73% of the TOTAL population.

Ohio jails/prisons are overcrowded at 128% capacity. Many are held simply b/c they're too poor to post bail.

This is a crisis.

Proud Boys continue their celebration online & call Trump's directive to them "historic." They are gathering new recruits. As instructed, they are on "stand by." Trump's failure to condemn white supremacy puts Black and brown lives in even greater danger.

Thanks to @democracynow for having me on to discuss last night's debate and President Trump's refusal to clearly disavow white supremacy. This presents a clear and present danger to Black lives.

GRAPHIC: Shataean Kelly was handcuffed, hogtied & driven UPSIDE DOWN in a cop car for 21 mins. Incredibly upsetting & reminds me of Freddie Gray's death in police custody. Cops must treat people with RESPECT. It's unacceptable that ANYONE should have to beg for their life!

Kentucky's DMV and social service agency offices are CLOSED.

But lawmakers believe that the middle of a pandemic is the right time to impose a discriminatory and burdensome PhotoID requirement on voters.

1,828 detainees at a prison facility in Marion, Ohio have tested positive for #coronavirus. That's 73% of the TOTAL population.

Ohio jails/prisons are overcrowded at 128% capacity. Many are held simply b/c they're too poor to post bail.

This is a crisis.

It's truly amazing that you even had to file this suit, Kristen. An illegally appointed "law and order" commission would be a joke if it wasn't so serious. Thank you for not letting anything slide...

1,828 detainees at a prison facility in Marion, Ohio have tested positive for #coronavirus. That's 73% of the TOTAL population.

Ohio jails/prisons are overcrowded at 128% capacity. Many are held simply b/c they're too poor to post bail.

This is a crisis.

As we pay attention to Trump's case, a reminder that Black and Latino Americans are 2 to 3X more likely to contract the coronavirus and 4X more likely to be hospitalized by it relative to white counterparts. This administration has failed to address these racial disparities.

🚨BREAKING: Florida has extended the registration deadline through 7 pm TONIGHT (October 6th).

While we believe the state must go further, we encourage the public to register NOW as we continue fighting for more time.

FLORIDA DEPARTMENT of STATE

MEMORANDUM

TO: Supervisors of Elections

FROM: Laurel M. Lee
Florida Secretary of State

DATE: October 6, 2020

SUBJECT: Directive 2020-02 – Extension of Florida Voter Registration Deadline

1. As chief election officer, I have the responsibility to "obtain and maintain uniformity in the application and implementation of election laws." § 97.012(1), Fla. Stat.; and, ultimately, to "maintain secure statewide voter registration systems as required by law." § 98[illegible] and "[a]dminister the [election] laws with respect to the right of citizens to vote and the efficient conduct of elections." § 97.012(14), Fla. Stat.

2. More specifically, section 97.055 in the Florida Statutes mandates that the State "establish a uniform statewide deadline for persons to apply to register to vote or update a voter registration application." The new State "shall transmit" to the supervisor of elections all [illegible] applications "[n]o later than 7 days after the deadline to register to vote." § 97.0525(1), Fla. Stat. Applicants themselves receive from the website an immediate electronic confirmation that the supervisor of elections has received the application." § 97.0525(1), Fla. Stat.

3. The Department of State's online voter registration system has been operational since the end of October 5, 2020. Consequently, many Floridians planning to register to vote through the system before the [illegible] deadline today [illegible] may have experienced difficulties.

4. Because of these difficulties, I have directed that any applications received in person today, October 6, 2020, by [illegible] local time, through the following channels will be accepted:

- County Supervisors of Elections Offices
- Local Tax Collector's Offices
- Department of Highway Safety and Motor Vehicles' Driver's Licen

[illegible]ernor DeSantis and I will be working with these offices to discuss extel[illegible]rs today to further assist potential voter registrants. We encourage and a[illegible] efforts to assist voters in these circumstances.

In the midst of an election that is already underway, Gov. Abbott's decision to change the status quo and
force new burdens on voters is unreasonable, unfair, and unconstitutional.

Access to ballot drop-off locations has proven critical amid the ongoing pandemic.

Abbott made this reckless decision even though Texas has been among the states impacted most severely by #COVID. More than 1 in 10 of the nation's cases are in Texas—nearly 770K in total.

Why is Abbott forcing Texans to choose between their health and the right to vote?

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

INTRODUCTION

1. This Complaint challenges the unconstitutionality of Governor Greg Abbott's October 1, 2020 proclamation ("October 1 Order") that prohibits Texas counties from providing voters with more than one location to return their marked mail-in ballots for the November 2020 election.

2. The October 1 Order is a thinly veiled attempt to suppress the vote under the guise of "enhancing ballot security" and "curbing" the risk that thousands of Texans who must vote by mail to avoid the risk of COVID-19 infection will be prevented from dropping off their mail-in ballots at easily accessible and secure county drop-off locations. In the State's largest counties including Harris and Travis, the October 1 Order limits the total number of drop-off locations to one per county, which means that voters who already waited returning absentee ballots and a little over a month before the November 3 election. Harris County had already designated eleven drop-off locations as well as NRG

Based on the Census Bureau's own data, undercounts remain in Alabama, Louisiana, Mississippi, South Carolina and more

We applaud #SouthCarolina for resisting Kris Kobach's 2nd request for voter data. @LawyersComm will keep fighting #ShamVotingCommission.

SOUTH CAROLI ELECTION COMMIS

August 1, 2017

Kristen Clarke
President and Executive Director
1401 New York Avenue, NW
Suite 400
Washington, DC 20005-2124

Dear Ms. Clarke:

Thank you for your letter to Chairman Way expressing your concerns about South Carolina providing sensitive voter information to the Presidential Advisory Commission on Election Integrity (PACEI). After careful consideration of the request and applicable state laws, we concluded the State Election Commission does not have the authority to provide publicly-available voter roll data to the PACEI. South Carolina Code of Laws Section 7-3-20(12) allows this agency to "furnish at reasonable price any precinct lists to a qualified elector requesting them."

If you have any questions, please don't hesitate to contact me.

Sincerely,

Marci Andino

BREAKING: Victory secured in Ohio over Sec'y LaRose's unlawful and discriminatory rule BANNING counties from having more than 1 drop box. This ruling benefits voters across Ohio, esp those in Cuyahoga Cty and other population centers. We'll keep fighting to protect #VotingRights.

Plaintiffs,

FRANK LAROSE,

Defendant.

CASE NO. 1:20-CV-01900

JUDGE DAN AARON POLSTER

OPINION AND ORDER

Before the Court is Plaintiffs' Motion for Reconsideration of the October 6, 2020 Opinion and Order. Doc #: 89. For the following reasons, the Motion is **GRANTED**. The Court re-opens the case and the Plaintiffs' Motion for Preliminary Injunction, Doc # 13, is **GRANTED**.

I. Introduction

The power of a federal judge to enjoin an order of a duly elected state official should be exercised only when it is essential to vindicate a vital constitutional right, and when all methods short of that have been tried. This is the case here.

As the Court has stated previously, the evidence presented at the September 22 hearing identified a very serious problem in Cuyahoga County which jeopardized the right to vote for many citizens who were concerned about the reliability of the mail and wanted to personally deliver their ballots. First, there are many people without cars for whom travel to the board to deliver their ballots would be very difficult. Second, the physical size of the board, with the drop

Why was this discriminatory?

Cuyahoga Cty: over 850K reg'd voters
Franklin Cty: over 850K reg'd voters
Vinton Cty: 8,300 mostly white voters

Under this scheme, they all get 1 drop box. This ban had a particularly stark impact on Black voters in Ohio's major population centers.

Powerful finding by the court regarding the disparate impact--> "While it may be said that the 7,903 registered voters in Noble Cty may find a single drop box location sufficient, the record demonstrates that the 858,041 registered voters in Cuyahoga Cty will likely not."

This is madness.

Today the Justice Department sued Yale University attacking its racial diversity efforts. Barr is fully unhinged and DOJ has totally abdicated its duty to promote educational opportunity, advance civil rights and protect our nation's most vulnerable communities.

UNITED STATES DISTRICT COURT
DISTRICT OF CONNECTICUT

UNITED STATES OF AMERICA,
Plaintiff,
v.
YALE UNIVERSITY,
Defendant.

Civil Action No: _____

JURY TRIAL DEMANDED

COMPLAINT

Plaintiff, United States of America, alleges as follows:

INTRODUCTION

1. The United States brings this action to enforce Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. §§ 2000d to 2000d-7, and to "assure[] that public dollars, drawn from the tax contributions of all citizens, do not serve to finance the evil of private prejudice." *City of Richmond v. J.A. Croson Co.*, 488 U.S. 469, 492 (1989) (plurality opinion).

2. For at least 50 years, Defendant Yale University ("Yale") has unconstitutionally subjected applicants to Yale College to discrimination on the grounds of race and national origin. For the last few decades, Yale's increasingly sophisticated use of race has subjected domestic, non-minority applicants to Yale College to discrimination

As a civil rights lawyer who started off her career at the Justice Department, I can't underscore enough how outrageous it is that DOJ is challenging racial diversity on college & university campuses. Barr and Dreiband are bent on dragging this nation back to the Jim Crow era.

And this lawsuit is nothing more than a carefully coordinated scheme by DOJ to support Ed Blum, former hedge fund manager, who has made it his life's work to end racially conscious admissions programs in the higher ed context.

This is clear politicization of DOJ's work.

I'm confused...how does what she has previously said discount her own reported experience of abuse? We know that many folks question the abuse of others and while not excusable, it also doesn't cancel out their experience. And is not uncommon, especially in regard to women.

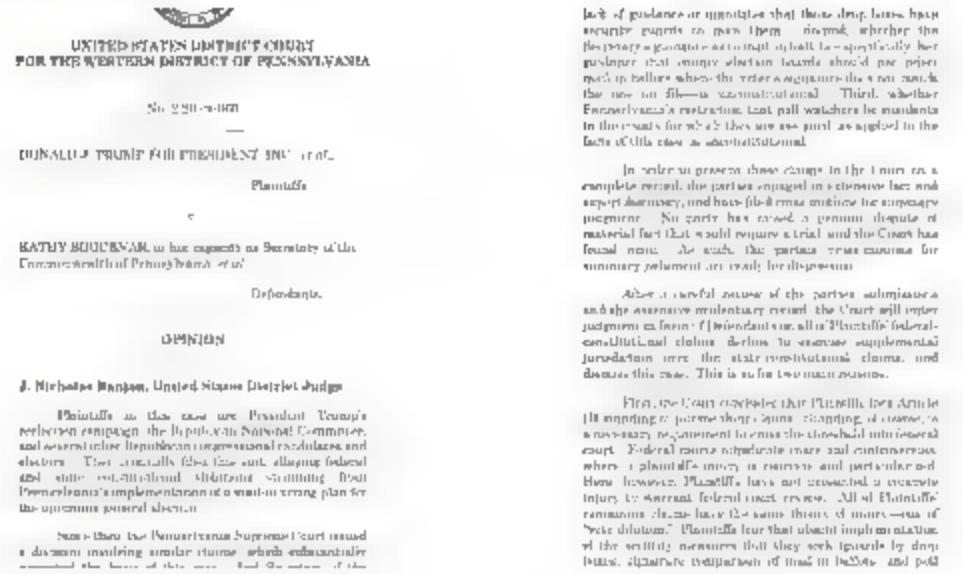
BREAKING: Federal court REJECTS Trump challenge to use of drop boxes, rule requiring poll watchers reside in county they seek to serve in and guidance on processing of absentee ballots. Big victory for voters across Pennsylvania.



UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF PENNSYLVANIA

DONALD J. TRUMP FOR PRESIDENT, INC., et al.,

Plaintiffs

v.

KATHY BOOCKVAR, in her capacity as Secretary of the Commonwealth of Pennsylvania, et al.

Defendants.

OPINION

J. Nicholas Ranjan, United States District Judge

Plaintiffs in this case are President Trump's reelection campaign, the Republican National Committee, and several other Republican congressional candidates and electors. They essentially filed this suit alleging federal and state constitutional violations stemming from Pennsylvania's implementation of a mail-in voting plan for the upcoming general election.

Since then, the Pennsylvania Supreme Court issued a decision involving similar claims, which substantially

lack of guidance or opportunities that these drop boxes have security guards to man them. Fourth, whether the Secretary's guidance on ballot defects—specifically her guidance that county election boards should not reject mail-in ballots when the voter's signature does not match the one on file—is unconstitutional. Third, whether Pennsylvania's restriction that poll watchers be residents in the county for which they are assigned to the facts of this case is unconstitutional.

In order to process these claims in the Court to a complete record, the parties engaged in extensive fact and expert discovery, and have filed cross motions for summary judgment. No party has raised a genuine dispute of material fact that would require a trial and the Court has found none. As such, the parties' cross motions for summary judgment are ready for disposition.

After a careful review of the parties' submissions and the extensive evidentiary record, the Court will enter judgment in favor of Defendants on all of Plaintiffs' federal-constitutional claims, decline to exercise supplemental jurisdiction over the state-constitutional claims, and dismiss this case. This is as fair and as much as it seems.

First, we begin with the Plaintiffs' first Article III standing requirement: injury-in-fact. Standing, of course, is a necessary requirement to establish jurisdiction in federal court. Federal courts adjudicate cases and controversies, where a plaintiff's injury is concrete and particularized. Here, however, Plaintiffs have not asserted a concrete injury to warrant federal court review. All of Plaintiffs' remaining claims have the same theme of more—vote dilution. Plaintiffs fear that absent implementation of the security measures that they seek (mainly by drop boxes, signature comparison of mail-in ballots, and poll

Drop boxes in Pennsylvania are common sense.

10 counties cover over 1,000 square miles & 2/3 of counties cover over 500 square miles, meaning some voters would have to drive dozens of miles (and perhaps in excess of 100 miles) to return a mail-in ballot to their Bd of Elections.

> Secretary Boockvar also states that drop boxes are highly convenient, and cost-saving, for both counties and voters. For counties, she notes that "24-hour secure ballot drop boxes" are "cost-effective measures . . . as they do not have to be staffed by election judges." [*Id.* at p. 24 ¶ 62 (citing ECF 549-11 at p. 11); ECF 549-9 at ¶ 34]. As for voters, the Secretary explains that, in a state where "ten counties . . . cover more than 1,000 square miles" and "two-thirds" of counties "cover more than 500 square miles," many Pennsylvania voters "could be required to drive dozens of miles (and perhaps in excess of 100 miles) if he or she wished to deposit his or her mail-in ballot in person at the main county board of elections office." [*Id.* at ¶ 58 (citing ECF 549-29)].

Court cites Prof. Matthew Barreto who notes that drop boxes are especially important for Black and Latino voters who have concerns about the USPS delivering their ballots.

(Note -- we are still fighting the USPS in a separate lawsuit pending in Maryland)

Professor Matthew A. Barreto, a Professor of Political Science and Chicana/o Studies at UCLA. [ECF 549-7]. Professor Barreto offers the opinion that ballot drop boxes are an important tool in facilitating voting in Black and Latino communities. Specifically, he discusses research showing that Black and Latino voters are "particularly concerned about the USPS delivering their ballots." [*Id.* at ¶ 22]. And he opines that ballot drop boxes help to reassure these voters that their vote will count, because "there is no intermediary step between the voters and the county officials who collect the ballot." [*Id.* at ¶ 24].

I'll never forget being at the #SCOTUS for arguments when Scalia described the Voting Rights Act as a "perpetuation of racial entitlement."

This is our nation's most important federal civil rights law.

Over 9.3M voters have cast ballots in the #2020Election. Voters are being denied voice as the Senate races forward with the nomination of Amy Coney Barrett.

This is the first time in history that a hearing is happening as voters are actively casting ballots in a pres. election.

Mike Lee is being incredibly disingenuous. If most cases were 8-1 and 9-0, there would not be a mad rush to fill Justice Ginsburg's seat before the election and before the upcoming November 10th Affordable Care Act arguments.

The configuration of the #SupremeCourt matters.

FACT CHECK: Ted Cruz leaves out critical piece of history. There has never been a Supreme Court confirmation that's taken place after the month of July in a presidential election year. And certainly not days before the conclusion of an election.
